Section D: Record the amount of expenses incurred during the given fiscal year - this amount can be found on the annual financial worksheet under the "Actuals" column recorded for "Total Expenses".

Section E: The "Ending Cash Balance" cell will populate automatically. This cell equals the total amount of receipts less the disbursements. It is the amount of cash that should have been on hand at the end of the fiscal year.

The "Any Discrepancy" section compares the difference between the reconciled cash balance and checkbook balance and will let the audit committee know if there are any differences between the two which will need addressed.
